

B.20
SHOTBOLT IP40
LOCKING POWER OFF

BDC.20

- Maximum radial force: **60kg**
- Plunger output and input force: **100g**
- Standard voltage: **24V DC**
- Possible voltages: **12V DC - 200V DC**
- Nominal force: **9W - 20°C**
- Operating mode: **Permanent service**
- Maximum duty cycle: **100%**
- Isolation group: **0**
- Protection: **IP40**
- Service operating temperature: **-5°C, +40°C**
- Thermal class: **B**
- Total weight: **350g**

Example of use:

- Cover locking
- Door locking
- Master controller locking
- Protector locking
